3 things Rhona loves about the new L890

- 1 needle window so you know if you have the needles in the correct position
- 2 how easy it is to convert from overlocking to coverstitch compared to other combo machines I have used
- 3 fantastic lighting on both sides of the needle, where my machine is set up the lighting is not the best, working at night is not an issue.

3 Things Kate loves about the new L890 apart from the air threading and screen.

- 1 The guided program. This shows you each step to get the selected stitch (it even has animations to jog your memory).
- 2 The Creative Consultant helps you get the perfect setting for your specific fabric.
- 3 The stitch optimizer which guides you through how to get the perfect stitch. Basically, the machine is there to help you.

If you have questions about either of these machines, please feel free to call or email us. 0414770790 and [berninachats@bigpond.com](mailto:berninachats@bigpond.com)

Rhona has decided since she can't get to Scotland, that she'll bring some of Scotland over here. And has even digitized her tartan – thank goodness it's an easy one.
